Aims and Scope — It is the policy of *Alcohol and Alcoholism* to publish papers in English on biomedical, psychological and sociological aspects of alcoholism and alcohol research, provided that they make a new and significant contribution to knowledge in the field and areas thereof concerned. Papers may include new results obtained experimentally, descriptions of new experimental (including clinical) methods of importance to the field of alcohol research and treatment, or new interpretations of existing results. Theoretical contributions, particularly in the areas of sociology and psychology, will be considered equally with papers dealing with experimental work provided that such theoretical contributions are not of a largely speculative or philosophical nature.

Submission of Manuscripts — All manuscripts should be sent to the Editor, Dr Allan D. Thomson, at the address given above. Before preparing their contributions, authors are requested to study the Instructions to Authors which are published in each issue of the Journal. (Copies of these instructions are available from the Editor.)

Annual Subscription Rates (1985) — Published quarterly.

For libraries, university departments, research establishments and all other multiple reader institutions the subscription rate is US$85 per annum (including postage and insurance). Two-year rate (1985–86) US$161.50. Individual members of the Medical Council on Alcoholism may subscribe at the much reduced rate of £12.50 per annum. Subscription enquiries from customers in North America should be sent to the New York office and from the rest of the world to the Oxford office (see below for addresses).

Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.
